We start by listening to a family’s needs. We then offer a customized strategic plan and a proactive emergency response system. A key component to this is our **TheiaVault™** – a privacy-protected solution to housing all critical information that could be needed in time of healthcare crisis, readily available at one’s fingertips, in cloud and hard-copy forms. Theia clients enjoy access to a broad array of concierge services. Each situation has unique nuances, and our staff, with an average of 20 years of geriatrics experience, knows how to create a highly-customized plan for each family. Our commitment to providing the highest level of service begins with our leadership team, accomplished professionals from the healthcare, consulting and financial industries.
